

The Great Big small Charity Car Draw Poster – How to Print

Step 1: Print the PDF version of the poster, there will be a blank space in the middle, where your personalised information will go.

A4 Poster
Print on Plain A4 Paper

Step 2: Use the word template for the poster to design your personalised section. There's space to insert an image and some text. Make sure you stay within the textbox because this lines up perfectly with the poster. See below for the FSI's example.

Print on top of the A4 poster

Step 3: Print your word design over the poster, making sure you check which way you need to place the paper through the printer. Your personalised design will fit within the space on the original design.
